(The above rates reflect our base rate for each program.)

*At St. Andrews Village Safe Havens Program, we offer three levels of care based on an individual's interests, capabilities and needs. On our Assisted Living unit, the residents receive the basic service package (Plan A), which provides up to 1 hour of assistance with daily living per day including care plan development and ongoing registered nurse oversight for functional assessment and service plan development and update. Additional personal care services are available through the St. Andrews Heart to Heart Personal Care program.*
